Pergola softwood models SP2800/SP3000/SP4000 green oak models GP2800/GP3000/GP4000  
Canopy can be supplied separately with models CC2800/CC3000/CC400

These square coned gazebo's utilize tensile fabric technology to create light weight but strong canopies capable of withstanding most weather conditions. The fabric membrane is manufactured from top quality waterproof laquered PVC/PES which gives 100% UV protection.

We can manufacture and install these structures for many purposes. Contact us for a price list.
