FG 5000	4820	2200	2565	2055	3800	5100	5760

All steel construction hot zinc & powder coated.

These square coned gazebos utilize tensile fabric technology to create light weight but strong canopies capable of withstanding most weather conditions. The fabric membrane is manufactured from top quality waterproof lacquered PVC/PES which gives 100% UV protection.

We can manufacture and install these structures for many purposes. Contact us for a price list.
